SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

As of 04/02/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information visit: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Travel-Advisory.aspx>

On 04/21/21, the State Operations Center (SOC) changed the reporting tempo for the COVID-19 Sit Stat and Trifold Reports from daily to once a week. Updated reports can be expected every Tuesday of each week until further notice.

SITUATION SUMMARY

Coronavirus Disease 2019 (COVID-19) (Continued)

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 06/01/21 at 1100 hours:

- 171,724,175 (+3,428,782) total confirmed cases
- 3,570,764 (+77,436) total deaths

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 06/01/21 at 1000 hours:

- 33,093,238 (+123,333) total confirmed cases
- 591,539 (+3,709) total deaths

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 06/01/21 at 1100 hours:

- 3,685,455 (+10,793) total confirmed cases

COVID-19 Vaccines Administered – Per Vaccine Task Force as of 05/31/21 at 2359 hours:

- 37,557,507 (+1,045,950) vaccines administered
- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

- Nothing significant to report.

SITUATION SUMMARY

Cal OES SOUTHERN REGION

Earthquake Sequence Salton Sea, Riverside and Imperial Counties Post Earthquake Swarm

DATE/TIME OF INCIDENT: 06/07/21 at 1040 hours

The magnitude 5.2 earthquake that occurred on 06/05/21 near Obsidian Butte has resulted in many smaller earthquakes and aftershocks since the event. The California State Warning Center, SDO, and EQTP DO are continuing to monitor the situation. Today's biggest earthquakes and aftershocks are listed below.

- EQTP DO - Per communication with the USGS California Volcano Observatory personnel at 1645 hours today, this afternoon's seismic activity is generally consistent with the swarm activity observed this weekend. The earthquake activity being observed is consistent with crustal faulting and not with magma such as that associated with volcanic activity.
- RDO - Cal OES territory representative checked in with Imperial County OEM. They have advised there is nothing significant to report at this time from today's events.

From USGS Salton Buttes Monitoring Map (06/07/21, 1630 hours)

- The four largest earthquakes in today's series included:
- At 1408 hours – M4.1 (verified)
- At 1419 hours – M3.4 (verified)
- At 1424 hours – M3.6 (verified)
- At 1446 hours – M2.7 (verified)

Northern California	Central California	Southern California
No 911 Outages	No 911 Outages	No 911 Outages

9-1-1 Outage/Remote/Community Isolation

Community Isolation, Bakersfield, Kern County (Final)

AT&T has reported a community Isolation affecting 1,126 Wireline users in Bakersfield, Kern County (Affected zip codes: 93308). The cause of the outage is unknown.

- Time Outage Started: 06/07/21, 0008 hours
- Time Outage Reported: 06/07/21 0052 hours
- Time of Resolution/Restoration: 06/07/21 0945 hours
- Total Outage Time: 9 hours, 37 minutes
- Jurisdiction(s) Affected: Bakersfield PD, CHP Bakersfield, Kern County Sheriff
- Reason For Outage: Unknown
- Wireless Users Impacted: No
- Wireline Users Impacted: Yes – 1,126 users affected

Community Isolation, Los Angeles, Los Angeles County (Initial)

Charter Communications has reported an outage affecting 1,047 VoIP customers in Los Angeles (zip code: 90048). The cause of outage is unknown.

- Time Outage Started: 06/07/21 1844 hours
- Time Outage Reported: 06/07/21 1920 hours
- Time of Resolution/Restoration: N/A
- Total Outage Time: N/A
- Jurisdiction Affected: Los Angeles County Sheriff West Hollywood Division, LAPD
- Reason For Outage: Unknown
- Wireless 9-1-1 Calls Impacted: No
- Wireline 9-1-1 Calls Impacted: No
- VoIP 9-1-1 Calls Impacted: Yes – 1,047

Service Interruptions

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A Red Flag Warning is now in effect for the Owens Valley and Southern Inyo Forest for Wednesday
- A Red Flag Warning is now in effect for Alpine and Mono Counties for Wednesday
- A Red flag Warning is now in effect for Western Lassen, Eastern Plumas, Eastern Sierra Counties, the Greater Lake Tahoe and Truckee Areas, and Eastern Lassen County until 2300 hours tonight

SOUTHERN CALIFORNIA

- Nothing significant to report.

Weather Advisories, Watches, and Warnings currently active in California:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

06/07/21 - 06/13/21

Monday - Wednesday

- Much cooler temperatures for the majority of the state through midweek, with the exception of the southeastern deserts where daily highs will remain near 100 degrees
- Elevated to critical fire weather conditions continue each afternoon and evening across much of northeastern California through Wednesday, while more localized areas of the southern Sierras and southern California mountains also see elevated fire weather conditions due to gusty winds and low humidity
- Outside of the critical fire weather areas, gusty winds are also expected each day for coastal areas of central California through midweek
- Scattered showers are expected across far northern California very late Tuesday night into Wednesday, though any rainfall amounts will be light
- Areas of fog each night and through mid morning into Tuesday for coastal southern and central California, with even some very light drizzle possible at times today. Any rainfall amounts will be very light.

Thursday - Sunday

- Lighter winds expected for late week and into the weekend along with a warming trend in temperatures
- Some light precipitation appears increasingly likely across far northern California by late in the week and perhaps into the weekend as well

CALIFORNIA WEATHER IMPACTS

06/07/21 - 06/13/21

Monday

Tuesday

Wednesday

Precipitation (inches)

WEATHER OUTLOOK

06/12/21 - 06/20/21

6-10 Day Outlook (June 12 – June 16)

Temperatures

- Below normal temperatures are favored across northern California, with above normal readings favored across southern California

Precipitation

- Near normal precipitation is favored for much of the state, with the exception of far northern California where above normal precipitation is favored

8-14 Day Outlook (June 14 – June 20)

Temperatures

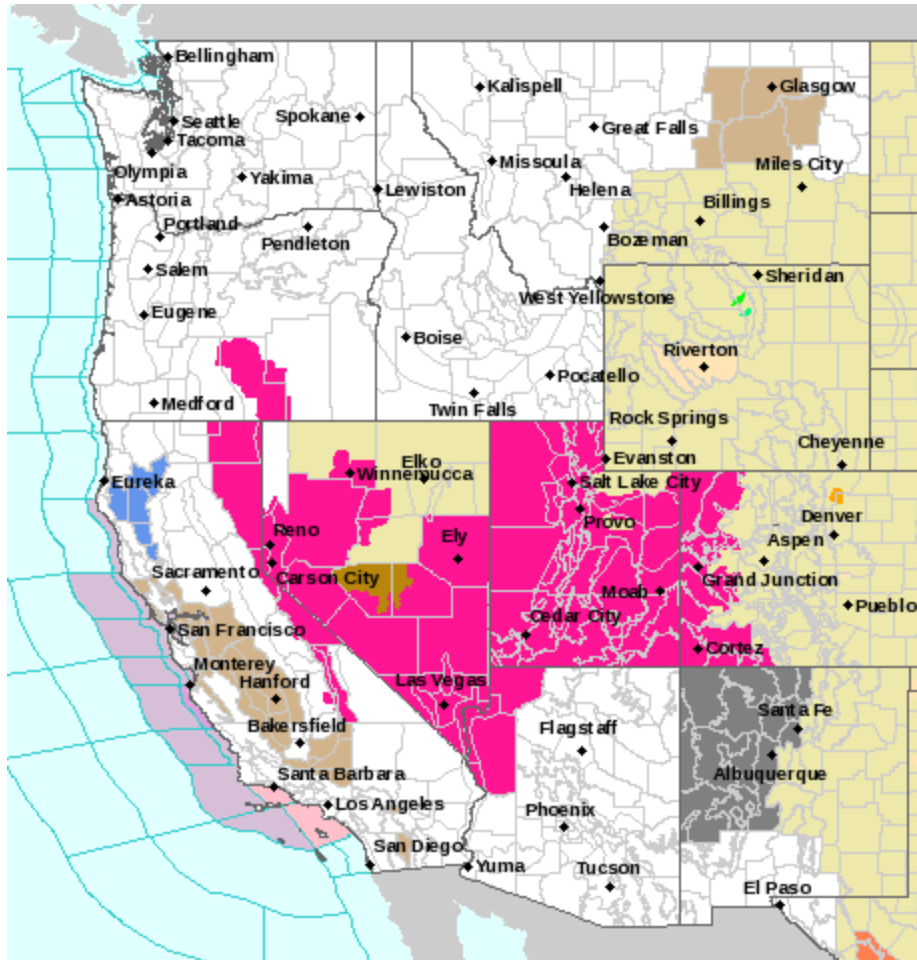

- Above normal temperatures are favored across the entire state

Precipitation

- Near normal precipitation is favored statewide
